

Dare to Soar

Introduction to ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEM

CBS 30 Course Duration: 2 days

This course is approved by South African Auditor Training and Certification Association who is recognised as a Nationally Authority by SANAS. It is essential as a delegate your efforts are recognised by a national body otherwise your qualification is not worth the paper that it is written on.

The comprehensive training material, case studies and the experience of the instructors sets this course as the benchmark in South Africa.

The Learning objectives of this workshop is to provide the delegate with an understanding and knowledge of the SANS ISO 14001 EMS standard.

Our ISO 14001 training course gives you the skills framework needed to develop your own environmental management system procedures. Understand the benefits of streamlined processes and share knowledge across your organisation. The course will coach you from the establishment of the environmental policy to effectively deploying it throughout your organisation.

Learning objectives.

Understand the benefits of an effective environmental management system

Have confidence in your ISO 14001 compliant EMS framework

Monitor and constantly improve environmental systems.

Contribute to an economic and sustainable development as well as protecting your childrens future.
